Announcement

It is with satisfaction that the members of the Central Iowa Shorthorn Breeders Assn. announce their forthcoming 84th consignment sale. To be brief and with sincere honesty, I do not wish to misrepresent this consignment as you read in a lot of sale ads, (the best ever). Now please bear with me, as this is my first attempt; I took over the management of this sale organization in November and shortly after I began making arrangements for this sale. It was much to my surprise to find that the shortage of both bulls and females, especially the females, high commercial value has reduced the number available for this sale. In this short term experience of mine how noticeable it is to find how the big majority of the breeders are using better herd bulls, better foundation females and they are producing better cattle with much more quality and better colors. You just don't find the long upstanding flea-bitten cattle anymore. I promise you ONE THING: we will show you some very good bulls and some very good heifers with excellent blood lines — just as good as ever set feet in the Mason Sale Barn. The footnotes that you will find attached to the pedigrees are written by the owners and you will find them to be rather modest.

SHOW AT 9:30 A. M. — SALE BEGINNING AT 12:45 P. M.

ROSS A. LONG, Manager.

We have used this bull for 4 crops of calves. Since we have retained most of his heifers in herd, we must part reluctantly with Britomac Priam Leader. He has sired good-headed, deep-bodied calves. There are 4 heifers in the Sale by him. If you need good heads and low-setness, look him over.

This calf is the grandson of the famous Kirkton Baronet. His mother is the granddaughter of Supreme Goldfinder. She has some Polled breeding in her, and this calf is Polled, although sired by Phopachy Fortune, a horned bull which has a lot of background.
